3.0 Getting Started

3.1 The Customer accepts responsibility for the status of their System prior to the involvement of Progress. Any System deficiencies resulting from poor management prior to the commencement of the IT Support services (Demand / Active / Standard / Premium) Agreement may lead to increased costs which are beyond the control and responsibility of Progress.

3.2 Prior to the commencement of an IT Support services (Demand / Active / Standard / Premium) Agreement a System Audit will be performed. Any deficiencies found in the System Audit can be corrected for a fixed price. Alternatively they will be noted in the System Definition of the Agreement. The client is under no obligation to resolve the issues raised by the System Audit.

3.3 The results of the System Audit presented in a report will allow Progress to recommend a number of Credits which upon acceptance by the Customer will form the Agreed Credit Balance.

3.4 The report issued by Progress following the System Audit will also state any recommended IT Support services (Demand / Active / Standard / Premium) packages.

3.5 Once payment is received for the Agreed Credit Balance, the Credits will be deposited into the Customer's IT Support services (Demand / Active / Standard / Premium). The Credits may then be exchanged for Incident Support as required.

3.6 Progress retains the right to set a minimum Agreed Credit Balance depending upon the number of users within a Customer's organisation.

3.7 Any IT Support services (Demand / Active / Standard / Premium) Option packages required by the Customer will be performed as scheduled in the Agreement and will be billed in arrears via IT Support services (Demand / Active / Standard / Premium) Invoices as stated in section 8 below.

4.0 Requesting Support

4.1 All requests for Support from the Customer must be made by Authorised Callers via telephone on 020 3358 0070 or e-mail on support@progresscomms.co.uk or via the Progress IT Support Web Interface <http://www.progresscomms.co.uk>

4.3 By naming individuals as Authorised Callers the Customer agrees to incur costs or deduction of Credits for Incidents raised by those Authorised Callers and that the said individuals will have been made aware of the cost implications of raising Incidents under the Response Times stated below in clause 4.4.

4.4 When logging an Incident the Authorised Caller representing the Customer MUST provide a description and state the required Response Time for the Incident. The Response Time stated must be in accordance with those listed below. The Response Times listed below only apply to Progress's working hours as stated in section 5.0 below:

The Incident reference number along with details of the Incident will be stated to the Authorised Caller in the form of an email or web page confirmation page.

4.6 In circumstances when the Customer is not able to send or receive emails or web confirmations and therefore verbally notifies Progress of an issue, the Authorised Caller will be verbally informed by the Progress representative who logs the Incident as to the Incident reference number.

4.7 In the event of the Customer wishing to query the progress of an Incident, the Customer must be able to state the specific Incident reference number to enable Progress to identify the Incident in question.

4.8 Support delivered in respect of all Incidents (Incident Support) will be logged under the specific Incident reference number.

4.9 Progress retains the right to perform Incident Support at any point within the requested Response Time. If the Customer cancels an Incident when work has already commenced, the time spent up to that point will remain chargeable.

- 4.10** The Response Time specifies the time within which Progress will begin work on the Incident and not the time for a fix for the Incident to be implemented.
- 4.11** When a Progress Consultant begins work on an Incident a further automatic email will be sent to the Customer stating that work has commenced on the Incident.
- 4.12** Whilst working on Incidents, Consultants will keep a record of the time they have spent and the actions taken. This information will be logged in the IT Support Application / Incident Report.
- 4.13** No guarantees or commitments will be given regarding the length of time required for resolving Incidents.
- 4.14** Due to the nature of the service provided via IT Support services (Demand / Active / Standard / Premium), Consultants regularly refer to colleagues for help and advice with specific issues in order to resolve Incidents as quickly as possible.
- 4.15** To ensure that Incidents are resolved as quickly as possible and to reduce the reliance on individual Consultants, Progress retain the right to allocate Consultants to Incidents and actions within Incidents as they see fit, depending on the skills, experience, and availability of Consultants.
- 4.16** Once the issue in question is resolved the Consultant will close the Incident in the IT Support Application. A final email will be sent to the Authorised Caller stating all times, notes and Credits used.
- 4.17** Upon closure of an Incident by a Consultant the appropriate number of Credits will be debited from the Customers' Account. The number of Credits debited for an Incident will be determined by the Response Time requested by the Customer and the number of minutes logged by the Consultant for that Incident in the IT Support Application.
- 4.18** In circumstances when the Consultant is unable to access the IT Support Application or when the Customer is unable to receive email, automatically generated e-mails may not be sent at all or will be sent later than the times specified within. Therefore email notifications are for information purposes only.
- 4.19** All Consultant notes and logged times are available to the Customer via email request.
- 4.20** The times logged in the IT Support Application which are available for the Customer to view relate to the Credits used and costs incurred by the Customer via their monthly IT Support Invoice.
- 4.21** If Progress fail to meet a Response Time (which has been by Progress) for an Incident Support, then the specific Incident in question will be performed free of charge but this does not include the supply of hardware, software, or the services of third parties. For the avoidance of doubt, only time spent by a Progress Consultant related to the Incident is free of charge.
- 4.22** If Incident Support is delivered later than a requested Response Time due to a specific request from the Customer, all time spent on the Incident will remain chargeable.
- 4.23** Remote Support will be delivered when possible. Consultants will gain remote access to the System to investigate faults and implement the necessary fix. When the Customer seeks Support in the form of advice/instruction it will be provided via telephone or email.
- 4.24** The Customer accepts that in certain circumstances a Consultant will have to make an On Site visit in order to implement the required fix or to fully diagnose the Incident in question.
- 4.25** When On Site Support following Remote Support is not necessary or possible immediately (e.g. delivery of a vital piece of equipment is being awaited); the On Site Support will be charged at the subsequent slower Response Time according to the time agreed with the Customer for the On Site visit.
- 4.26** If the Customer specifically requests On Site Support for any Incident as opposed to Remote Support, Progress will oblige. The Customer accepts that this may lead to higher costs as a result of the pricing structure detailed in section 8.0 below.

5.0 Availability of Support

- 5.1** Progress's standard working hours for Support services are 08:30 – 17:30 hours Monday to Friday.

6.0 IT Support Service Level Plans and packages

- 6.1** IT Support Service Level Plans and packages are a range of services that are supplied in addition to Incident Support. Option packages will be agreed with the Customer prior to being included within their IT Support services (Demand / Active / Standard / Premium).
- 6.2** Any IT Support Service Level Plans may be added to the Agreement upon request from the Customer with immediate effect. The signing of an Agreement Annex in addition to the main Agreement will be required for the Option package to be added to the IT Support services (Demand / Active / Standard / Premium).
- 6.3** The full Terms and Conditions for each available Option package are included below and within this document as part of these main Terms and Conditions.
- 6.4** The terms of termination for each Option package will be stated in the relevant S.L.P. or Agreement Annex.
- 6.5** In such circumstances when an Option package requires a third party licence agreement or a minimum contract period with specific termination requirements, the Option package will continue for the minimum period regardless of whether any other items of the IT Support services (Demand / Active / Standard / Premium) are cancelled or terminated.
- 6.6** When IT Support services (Demand / Active / Standard / Premium) is cancelled but an Option package remains in place, the full fees and charges relating to the Option package will remain payable by the Customer up to the end of the contractual period.
- 6.7** If the necessary termination notice, as stated in the relevant Annex of these Terms and Conditions has not been provided, the Option package may continue with all charges applicable for a further minimum contract period.
- 6.8** The price of each Option package will be determined by the needs of the Customer and the size of their System.
- 6.9** When applicable the agreed fees for IT Support services (Demand / Active / Standard / Premium) Option packages will be billed in arrears via IT Support services (Demand / Active / Standard / Premium) on Demand Invoices as per section 8 below.
- 6.10** Progress retains the right to add new IT Support services (Demand / Active / Standard / Premium) Option packages to its range of services at any time.
- 6.11** The Terms and Conditions for new IT Support services (Demand / Active / Standard / Premium) Option packages will be added to these main Terms and Conditions as Annexes on an "as required" basis. The addition of such Annexes will NOT be deemed as a change to these Terms and Conditions that warrants formal notification as stated in sections 18.0 and 19.0 below.

7.0 Changes to your IT System

7.1 The Customer retains overall responsibility for their IT System. Any Changes made to the System by the Customer or a third party will only be covered by the Agreement once approved by Progress.

7.2 For such a Change as set out above to be approved, Progress must receive appropriate details from the Customer in a timely fashion.

7.3 If accepted the Changes will be noted or added to the existing Agreement.

7.4 Any changes performed by Progress to the System will automatically be covered by the Agreement once any bedding down or warranty periods have expired if applicable. Bedding down periods and Warranties apply to fixed price project work only and as such are covered by separate Terms and Conditions included or to be added to these Terms and Conditions.

7.5 If Support is required for an unapproved System Change or another System, Progress will endeavour to provide Support under these Terms and Conditions. However Progress retain the right to refuse Support or impose additional charges as shall be deemed necessary at the time.

8.1.2 The agreed fee for any IT Support services (Demand / Active / Standard / Premium) Option packages delivered during or relating to the previous month.

8.2 The applicable price of IT Support services (Demand / Active / Standard / Premium) Credits at any given time will be stated on an email sent out to the Customer either when requested or periodically. As per section 18 below, Progress retain the right to revise the price of Credits or the number of Credits charged per hour from time to time. In the event of a change in pricing, formal notice will be provided to the Customer by Progress as stated herein.

8.3 For Incident Support, time segments will be billed in full if only part of the time segment has been spent by a Consultant providing Incident Support.

8.3.1 Remote Support is billed in 15-minute time segments. The minimum billing period for Remote Support is 15 minutes for Customers under S.L.P. Agreements but for Demand supported Customers this minimum billing period increases to 30 minutes.

8.3.2 On Site Support is billed in 1 hour time segments. The minimum billing period for On Site Support is 2 hours plus travel time and expenses, unless otherwise stated in an S.L.P. Agreement with the Customer.

8.7 When IT Support services (Demand / Active / Standard / Premium) Invoices are paid on time, the requested level of Support for future Incidents will be delivered regardless of the number of Credits in the Customer's Account. (i.e. the Customer may become Overdrawn without any penalties or restriction to service.)

In other words the Customer will have to remain into contract for a further period so that the excess hours are fully justified.

11.3 At the end of the notice period the Customer's Account will be terminated unless Overdrawn.

This is an additional package which can be requested and will be billed in arrears when applicable or requested by the Customer as a separate line item on the Customer's monthly Invoice.

23.2 The Remote Monitoring Option package is only available to Customers who have periodic Server Health Checking performed on a quarterly or more frequent basis.

23.3 Progress Consultants will only react to alerts generated by the Remote Monitoring software during standard Support hours between 08:30 and 17:30 hours Monday to Friday (excluding public holidays).

23.4 If required the Customer can opt for alerts to be sent to an alternative email address (other than Progress) outside of Progress's standard hours of Support.

23.5 If, having received an alert outside of standard Support hours, the Customer can only request Support from Progress if they have the Out of Hours 24/7 Option package.

23.6 If a Customer has the Out of Hours 24/7 Option package they will need to contact the Out of Hours Consultant to log a Support Incident. In such circumstances when Support is requested, the provision of Support will be in accordance with the Terms and Conditions for the Out of Hours 24/7 Option package.

23.7 The Remote Monitoring Option is available as a bespoke or a standard package.

23.8 A one off fixed fee for setting up the Remote Monitoring software will be charged. The fee will be agreed in advance depending on the size and nature of the Customer's network. The setup fee will be stated in the Agreement.

23.9 A set monthly fee for providing the service on an on-going basis will be charged. The monthly fee will be dependent on the size and nature of the Customer's network and will be stated in the Agreement.

23.10 When the Customer requires a bespoke Remote Monitoring package there will be a consultation process to highlight / agree the System services that require monitoring.

23.11 Whether the Customer opts for a bespoke or standard package, when a specified remotely monitored service returns an error, Progress will perform an initial assessment of the alert and classify it as either a critical or a non critical issue.

23.12 It is not possible to define what is "critical" and therefore the judgement of the Consultant will prevail in determining when an error is deemed as critical.

23.13 When Progress receives an alert that is deemed as critical, the following procedure will be followed:

23.13.1 The Customer's Primary Contact will be called. The problem will be explained and the Primary Contact can then decide the course of action required i.e. whether or not to log an Incident and under what Response Time.

23.13.2 If the Primary Contact is not available one other Authorised Caller chosen at the discretion of Progress will be called. The problem will be explained and the Authorised Caller can then decide the course of action required. i.e.: Whether or not to log an Incident and under which Response Time.

23.13.3 If neither the Primary Contact nor the Authorised Caller contacted are available, Progress will log the Incident under an immediate Response Time in the name of the Primary Contact and proceed to rectify the problem.

23.14 When Progress receive an alert that is deemed as non critical, the following procedure will be followed:

23.14.1 The Customer's Primary Contact will be called. The problem will be explained and the Primary Contact can then decide the course of action required i.e. whether or not to log an Incident and under which Response Time.

23.14.2 If the Primary Contact is not available one other Authorised Caller chosen at the discretion of Progress will be called. The problem will be discussed and the Authorised Caller can then decide the course of action required i.e. whether or not to log an Incident and under which Response Time.

23.14.3 If neither the Primary Contact nor the Authorised Caller contacted are available, Progress will log the Incident as a within 1 working day Response Time, in the name of the Primary Contact and proceed to rectify the problem.

23.15 If the Customer wishes to cancel work being performed on an automatically logged Incident, they can do so at any time and Progress will cease work. The work performed up to the point of cancellation will remain chargeable.

23.16 If the Customer wishes, they can opt for issues not to be automatically logged as Incidents as a result of Remote Monitoring alerts. In such cases, when the Primary Contact and the chosen Authorised Caller are not available, an email will be sent to the Primary Contact and chosen Authorised Caller explaining the nature of the issue. Progress will then wait for direction before acting.

23.17 Having been made aware of an issue, the onus to log an Incident lies with the Customer. However when there is no action is taken to rectify the issue, alerts will continue to be raised by the Remote Monitoring software. If no response is received from the Customer, Progress will attempt to make contact again within a period of time deemed as appropriate for the severity of the issue.

As standard, PST files will not be imported. If your existing mailboxes are larger than the agreed limit, you will need to arrange to export historic email to PST files to store on your network. It is your responsibility to ensure these PST files are backed up as we will not retain a copy. Public folders can be stored but will count towards your overall mailbox limit.

It is the Customer's users' own responsibility to provide and maintain a sufficiently fast and reliable Internet Progression; support in relation to that progression is not included under this agreement.

34.7 Such access as mentioned under 29.9.6 is obtained by user password; it is the Customer's responsibility to keep any passwords issued to the Customer for your users secure, and to advise Progress immediately if you have reason to suspect a password to have become compromised. All access using a password allocated to you is conclusively presumed to have been authorised by you.

34.8 So far as is reasonably practicable, backups will continue to be taken and Global Company Data Access will be available on a 24 hour 7 day basis; it is however technically impossible to provide fault-free service, and the service is provided 'as is' and without warranties of any kind, express or implied (other than warranties not capable of exclusion). Whilst Progress shall use reasonable efforts to ensure that the Service is maintained at all times, to keep unavoidable interruptions to a minimum, and to give notice of anticipated interruptions, it is inevitable that there may be times when the service or some aspects of it are not available.

34.9 Online backup is not insurance against data loss, and nor is it a substitute for such insurance. 40.13.3 We do basic SEO for all sites we develop. But for keywords with heavy competition, this may not be adequate and we will need to do advanced SEO. Your site's ranking will also be affected if any of your competitors are doing SEO for their sites. Even if we do advanced SEO, it will take about six months to get all the keywords to the top ten positions. We have a dedicated SEO team with ample experience and we always keep ourselves updated with the new trends in SEO.

40.17.5 A deposit is required from any new Client before any work is carried out. The website will be switched to Live Mode once the Clients remaining balance is paid in full.

40.18 INTEREST ON LATE COMMERCIAL PAYMENTS

The late payment fee will be levied on the final invoice which is paid after 30 days from the date of issue of the respective invoice. The interest you can charge if another business is late paying for goods or a service is 'statutory interest' - this is 8% plus the Bank of England base rate for business to business transactions. You can't claim statutory interest if there's a different rate of interest in a contract. You can't use a lower interest rate if you have a contract with public authorities. The current Bank of England base rate is 0.5%, so statutory interest for a recent debt would be 8.5%. Check the Bank of England base rate history.

We shall further be entitled to post such notice in respect of the non-availability of your Web Site as we think fit. We may terminate or suspend any web site which is deemed to be causing a disruptive service to our Clients as a whole.

40.21.2 You may terminate your account with us if we cannot resolve any technical issues or problems concerning our services within a reasonable amount of time. You will receive a refund for the remainder of the contract term. However, we will not refund any used parts of the service.

41.0 Our Employees

41.1 Our staff are always deemed as the most valuable asset of Progress. If the Customer or a third party were to engage or try to engage them without Progress's written agreement by a Board member, Progress would suffer serious loss. You as the Customer therefore hereby agree that you shall not engage or try to engage our staff or introduce them to any third party other than in good faith and without any view to their engagement by a third party.

41.2 The Customer further agrees that if they engage or try to engage (or if a third party does so following introduction by the Customer) with any member or former member of Progress staff who has within the immediately preceding twelve (12) months been engaged in our provision of services for the same Customer, then the Customer shall pay Progress by way of liquidated damages such sum as represents 150% of the annual salary (or other annualised amount last payable by us) for the individual in question, to which both parties agree as a fair and reasonable estimate of the likely loss.

42.0 Terms of Sales General

The formation, construction and performance of all of the above Terms of Sale shall be governed in all respects by English Law.
